ER12PK-001-230V

1 CO contact potential free. 16A/250 V AC. Switching capacity 2000 VA. No standby loss. Sealable. Safe separation according to DIN EN 61140 and DIN EN 60664-1. Suitable as a coupling relay in the grid connection area.

Modular device for DIN-EN 60715 TH35 rail mounting. 1 module = 18 mm wide, 58 mm deep.
Passive relay suitable for use in utility field applications. Surge voltage resistant up to 4 kV.
Control voltage 230 V AC.
Low switching noise.
Control indicator with LED.
Integrated flyback/anti-surge diode.

ER12PK-001-230V	Switching relay with sealable cover	**Art. No. 22001602**	**40,85 €/pc.**
