RC12-230V

Triple RC module

Modular device for DIN-EN 60715 TH35 rail mounting.
1 module = 18 mm wide, 58 mm deep.
Used to compensate for inductive interference voltages on control leads. Up to three switchgear devices can be interference-suppressed by connection in parallel with the 230 V control inputs.

RC12-230V	Triple RC module	**Art. No. 22000015**	**44,52 €/pc.**
