wibutler pro (2nd Gen.) Controller with ELTAKO Edition App. The wibutler pro (2nd Gen.) is a future-proof central unit for building control, energy management, and alarm notifications. Due to its high flexibility, it offers diverse application possibilities for new and existing buildings. It combines future-proof communication standards with variable installation options and high data protection standards. The wibutler pro (2nd Gen.) is compatible with more than 300 devices from over 30 different top brands and securely connects them. The cross-manufacturer and cross-trade optimisation takes building technology to a whole new level.
The wibutler enables the integration of compatible ELTAKO devices via Matter into various eco-systems. Thanks to its Matter-Bridge certification, it can be integrated into different ecosystems and operated in parallel. For control via Matter, a compatible Matter controller is required for each ecosystem. For Apple Home, for example, a HomePod mini;
for Amazon Alexa, for example, a compatible Echo Dot; and for Google Home, for example, a Nest mini, etc.

TECHNICAL SPECIFICATIONS	
Dimensions	**(LxWxH) 13,2 x 13,2 x 2,6 cm**
Power supply	**input 5 V/3 A DC, power supply unit 100 V-240 V AC, 50/60 Hz**
Interfaces / Connectors - EU	**1 x Ethernet RJ45, 2 x 2.0 USB port**
Processor	**1 GHz CPU Cortex-A7 Dual Core**
Network	**WLAN IEEE 802.11 /b/g/n 2.4 GHz**
Wireless protocols	**Matter/Wi-Fi, EnOcean/868.3 MHz, ZigBee 3.0, Matter (possible in principle), TCP/IP, Low power radio/2.4 GHz, WLAN/802.11 b/g/n 2.4 GHz**
Hard disk	**integrated 4 GByte eMMC; RAM: 1 GByte RAM**
Color	**white**

WP2	wibutler pro (2nd gen.) Controller	**Art. No. 30000077**	**434,91 €/pc.***

THE WIBUTLER CONCEPT

wibutler is a manufacturer independent Professional Smart Home solution to simplify people´s everyday lives. The solution combines products of various manufacturers and needs only a single app for users to control, combine and automate all products. Using time and automation rules defined especially for this application, wibutler can assume tasks and act according to its owner´s wishes.

wibutler pro
The core of the solution is the wibutler pro 2 Controller. Thanks to multiple wireless standards (EnOcean, ZigBee 3.0, WLAN), it is extremely compatible and is capable of networking products irrespective of the manufacturer. The controller unifies the corresponding wireless standards and thus makes it possible to network products from different standards, manufacturers and industries. The wibutler pro can be used offline, which is why an internet connection is not necessary.

wibutler app ELTAKO Edition
It takes only a few clicks to network, automate and control smart products using the wibutler app ELTAKO Edition. The entire house is networked and controlled by a single app.

This is how it works:

- **Automation rules:** The wibutler organises devices to work in a team. Devices react by means of if/then rules to movements and actions such as the opening or closing of windows, doors or drawers.
- **Time control:** wibutler uses time rules to learn repetitive tasks which must be executed at particular times.
- **Remote control:** With the wibutler, the status of devices can be displayed and changed conveniently via smartphones and tablets while on the move.
- **Consumption logs:** The wibutler measures consumptions and shows where is the greatest savings potential.
- **Profiles:** defined rules are assigned to profiles (e.g. , 'Home Day/Night', 'Away' and 'Holiday'). With one click of a profile pushbutton you can change the entire house to the mode you require (e.g. 'Away': All OFF, alarm system and presence simulations ON).

* The software part is not discountable.
